

PLEASE READ:

Birth by Grace Midwifery Services, LLC is a private-duty midwifery practice. In efforts to keep home birth affordable for self pay and uninsured clients, Birth by Grace Midwifery Services, LLC charges a reduced-fee of \$4500.00 for private-duty midwifery care. This is only a fraction of the usual and customary rate for a normal vaginal delivery ,which can total up to \$16,000. Private duty midwifery care includes:

- Concierge service - All prenatal care is conducted by a licensed and Certified Nurse Midwife, which generally total 8-13 visits.
- Unlimited Open Dialogue/ Direct Communication with your primary midwife via text, email and phone
- Collection and interpretation of labs including blood work and cultures during the course of the pregnancy
- Collaboration with supportive medical team for complications that require medical consultation/interventions
- OB Triage, physical “labor check” visits , home birth and water birth experience
- Birth Assistant Fee - assists with set up, additional labor support and clean up
- Newborn procedures/care- the midwife files the birth certificate with the state, applies for social security card, prepares newborn birth record for pediatric visit, administers vitamin K injection (if desired), collects PKU screen (newborn blood test).
- Attending labor and birth, regardless of length of laboring/birth process
- Ability to administer medication, including intravenous (IV) therapy (if needed) during pregnancy and/or labor
- In the event a transfer to the hospital is necessary, the midwife will provide supportive services, which include communication with hospital staff and/or continued labor support.
- Administrative duties- Included but not limited to: insurance verification, employment forms (FMLA, etc). Breast pump orders, clearance letters needed for other medical services (dental, yoga etc.), scheduling appointments, consulting with medical team, invoicing/billing..

Fee does not include:

Ultrasounds

Additional Labs

Additional Birth Supplies
